INTERPROFESSIONAL CONTINUING EDUCATION

GUIDE TO THE JOINT ACCREDITATION PROGRESS REPORT PROCESS For Progress Reports to Be Reviewed in 2023

Joint Accreditation expects providers found to be in noncompliance with [Core Joint Accreditation Criteria](#) and/or applicable [Joint Accreditation policies and requirements](#) to demonstrate compliance through the progress report process. Descriptions of the specific performance issues that must be addressed in the progress report are provided in the decision materials from your recent review, along with the due date for your report. Noncompliance findings in the Menu of Criteria for Joint Commendation criteria should NOT be addressed in the progress report.

Progress Report Fee

The fee for this progress report is \$1,500. Please submit payment to:

Joint Accreditation c/o ACPE
190 S. LaSalle Street, Suite 3000
Chicago, IL 60603-4810

Contents of a Progress Report

For the specific performance issues described for noncompliance findings, providers must:

- describe improvements and their implementation; and,
- where applicable, provide activity-level evidence to demonstrate compliance.

Expectations of Materials Submitted

All materials submitted to Joint Accreditation must contain only true statements, must not omit any necessary material facts, must not be misleading, must fairly present the organization, and must be the property of the organization. Materials submitted for accreditation (progress report, evidence of compliance in activity files, other materials) must not include individually identifiable health information, in accordance with the Health Insurance Portability and Accountability Act (HIPAA).

Decision-Making

Providers will receive a decision from Joint Accreditation based on a review of all the information and materials submitted as part of the progress report. A progress report review may result in the following feedback from Joint Accreditation:

- **All Criteria Have Been Brought into Compliance:** The provider has demonstrated that it corrected the criteria or policies that were found to be in noncompliance.
- **All Criteria Have Not Yet Been Brought into Compliance:** The provider has not demonstrated that it has corrected the criteria or policies that were found to be in noncompliance. Either a second report or a focused accreditation interview may be required. The Joint Accreditors may change a provider's joint accreditation status as a result of the findings of a progress report.
- **Clarification Required:** Additional information is required to be certain that the provider is in compliance. An additional progress report may be required, or the issue(s) may be assessed at the time of next review.

There may be circumstances when a progress report is deferred to a future cohort, because, for example, a provider has not had sufficient time within the context of its CE program to implement improvements or to produce evidence to support compliance.

Submission Instructions

Please submit your organization's progress report electronically to info@jointaccreditation.org. Format the progress report as a single PDF that includes bookmarks to identify the criteria that you are addressing, your narrative descriptions and, where applicable, evidence from the three activities that you have selected for each of the criteria/policies that you are addressing.

Make all required submissions according to Joint Accreditation's specifications and by established deadlines. Failure to do so may result in a delay of your progress report review and/or a change of your organization's joint accreditation status. **Your submission must include:**

- a) Narrative descriptions of improvements made in cited areas of noncompliance in the Core Joint Accreditation Criteria and/or applicable Joint Accreditation policies and requirements; and,
- b) Evidence from three activities, as applicable.

You should address ONLY the Criteria or Policies cited as noncompliant in the decision materials from your recent review.

NOTE: For any activity evidence submitted, please provide the title, date, format, and target audience for the given activity.

Reporting Requirements for Joint Accreditation Criteria/Policies

The information below provides a guide for determining the content of the progress report to address noncompliance findings with Core Joint Accreditation Criteria and/or applicable Joint Accreditation policies and requirements. Responses should be developed in the context of the specific performance issue(s) identified in the decision materials from your recent review. Please contact Joint Accreditation staff if you have questions about what to include in your progress report.

Mission and Overall Program Improvement
