Activity Excel File Upload Instructions

For Joint Accreditation Reporting 2021 and Beyond

Introduction

The Excel batch upload function in Joint Accreditation Program and Activity Reporting System (JA-PARS) offers providers the ability to add, update or delete multiple activity records at one time. Although this function is available for use by all providers, it will be particularly useful to organizations that already have their own CE tracking system and can map the fields in their system to the fields in JA-PARS.

The main section of these instructions describes how to use a Microsoft Excel template to organize your data in such a way that it can be uploaded into JA-PARS and the fields/values that are necessary for the upload. Additional appendices supply lists of entries expected in certain fields. Certain fields are required to assign a certain status to an activity.

Draft: The activity has enough information to save a record in JA-PARS. In this batch method, Record Action, Internal ID, Activity Title, Activity Format, Activity Start Date, and Activity End Date are required to initially save an activity record. More information can be added as necessary with subsequent Update actions.

Record Action	ACCME Activity ID	Internal ID	Activity Title	Activity Format	Delivery Method - In-Person	Delivery Method - Livestreamed	Delivery Method - Online	Delivery Method - Print/Other	Activity Start Date	Activity End Date
Add		Example1-1	Diabetes Management Strategies	Enduring Material					1/1/2021	12/31/2023

Active: The activity has enough information to display on CME Passport. Any column with Yes indicated in the values table is required to achieve this status.

Ready to Close: An active activity with an end date that has passed. Once learner totals and commercial support details have been reported, this activity can be marked as closed via an update action.

Closed: Once an activity is marked as closed no additional updates can be made. A provider can re-open a closed activity up to 30 days after it has been marked as closed in the JA-PARS interface if edits need to be made.

Getting help with JA-PARS: If you can't find what you're looking for in these instructions, you can submit your questions to the ACCME using the contact support interface within JA-PARS. You may also contact Joint Accreditation at info@jointaccreditation.org with your questions.

How to use this template

1. Download the Excel activity file from the JA-PARS application.

The screenshot shows the JA-PARS application interface. At the top, there is a navigation bar with the logo and tabs for Dashboard, Activities, Learners, and Reports. Below this, there are links for Activity Summary, Add Activity, and Batch Upload Activities. The main content area is titled 'BATCH UPLOAD ACTIVITIES' and includes a 'View Upload History' link. A 'Hide Help' button is visible. The text states: 'Three methods of preparing batch activities are available:'. Under the 'EXCEL' section, it says 'Upload an Excel file using one of the templates below.' and provides a link to 'Get the Detailed Excel Instructions'. At the bottom, there are two download links: 'Batch Activity Excel File Use for CME' and 'Batch Activity with MOC Excel Use for CME and MOC'.

NOTE: There are two separate templates: 1 for CME only, 2 for CME and MOC.

The diagram shows two download links from the previous screenshot, each enclosed in a red box. A red arrow with the number '1' points to the first box, which contains the text 'Batch Activity Excel File Use for CME'. A red arrow with the number '2' points to the second box, which contains the text 'Batch Activity with MOC Excel Use for CME and MOC'.

2. The Excel activity file displays heading rows with general instructions followed by sample data rows. After reviewing the sample data, be sure to remove it from your file prior to uploading. **Do not remove the two column headers.** Limit the number of rows of data to 5,000 rows maximum.
3. One row is needed per activity, and all data on the same row must relate to the same activity. You can copy and paste the number of rows needed to enter all your activities in the batch. This will copy the cell validation/valid values into each row.
4. Certain columns can be copied and repeated within the file.
 - a. Commercial Support sources if there are multiple sources, and MOC board registration if there are multiple certifying boards.

	Repeat these three columns as a group for each source of commercial support			Repeat these three columns as a group for each source of commercial support		
Commercial Support Received?	Commercial Support Type	Commercial Support Source	Amount Received	Commercial Support Type	Commercial Support Source	Amount Received
Yes	Monetary	Abbott (Any division)	25000	Monetary	Globus Medical, Inc.	10000
No						

- b. MOC board registration if there are multiple certifying boards:

		Repeat these 9 columns for each certifying board for which an activity will be registered. For a list of accepted credit types and practice/specialty areas for each board see the reference sheet in this file. Separate multiple practice or specialty areas with a semi-colon.								
		Content Outline: Fill out the last 2 columns for ABA only. If choosing an "Other" tag, free text may be entered. Use the applicable number in the ABA reference sheet. If not registering for ABA please leave blank.

- Log into the Joint Accreditation Program and Activity Reporting System (JA-PARS). Click the Program and Activity Data button, then select the Activities tab and click the “Batch Upload Activities” option.

The screenshot shows the JA-PARS interface. At the top, there's a navigation bar with 'Dashboard', 'Activities' (selected), 'Learners', and 'Reports'. Below this, a sub-navigation bar has 'Activity Summary', '+ Add Activity', and 'Batch Upload Activities' (highlighted with a blue box). The main content area is titled 'BATCH UPLOAD ACTIVITIES' with a subtitle 'Add, update or delete activities' and a 'View Upload History →' link. A 'Show Help' button is also present. The page is divided into two main sections. The left section, '1) Prepare your file for upload.', includes a link 'Learn more about how to add, update or delete', a 'Batch Templates' section with two download links: 'Batch Activity Excel File Use for CME' and 'Batch Activity with MOC Excel File Use for CME and MOC'. The right section, '2) Upload your completed file.', contains instructions: 'If your file contains activities that are registered for one or more MOC/CC programs, by uploading this data you are attesting that the activities meet the requirements outlined in the CME for MOC Program Guide.' and 'If your file includes state content tags for medical licensing boards, then by uploading this data you are confirming that you have reviewed the content requirement(s) of the medical licensing board(s) and determined that this activity meets those requirement(s)'. At the bottom of the right section is a dashed box for file upload with the text 'Drop your completed file here, or [choose file](#)' and a note 'Accepts Excel and XML files. Only one batch file may be uploaded at a time.'

- Drag and drop or choose your Excel file to upload into JA-PARS.
- Once the file has finished uploading, click on View Upload History to see the status of the file's processing.

8. If there are rejected activity records, download the rejected activities to view and edit any errors within the file directly. The rejection reason is added to the last column in the file. This edited file can then be uploaded again to address any activities that were not added, updated or deleted properly the first time.
