About This Report

The Joint Accreditation Data Report 2023 features information from 169 diverse accredited education organizations that focus on continuing education (CE) by and for healthcare teams. These organizations are accredited by **Joint Accreditation for Interprofessional Continuing Education™**, hereafter referred to as Joint Accreditation. Each year, jointly accredited providers submit data describing their accredited education activities and overall education programs. Joint Accreditation aggregates this information to give a view of the year and long-range trends. Staff review the data reported by each accredited organization in the context of what the provider reported in the prior year, as well as in the context of the reporting instructions. The purpose of the review is to identify and correct errors caused by misapplication of Joint Accreditation data definitions and data entry mistakes, and to gain an understanding of the current CE environment and the nature of the education being provided. Joint Accreditation does not provide full verification of the accuracy of all reported information but does follow-up on outliers or major changes from previous years.

Jointly accredited organizations are located in 42 states and three countries in addition to the U.S. The geographic distribution and diversity of jointly accredited education providers means that healthcare teams have access to high-quality education where they live and work that addresses local, national, and international healthcare priorities.

A complete and current database of providers accredited in the Joint Accreditation system can be found on our website at **jointaccreditation.org/accredited-providers**.

Executive Summary

GOALS OF THE REPORT

For six years, the Joint Accreditation Data Reports have documented the evolution of the accredited interprofessional continuing education (IPCE) enterprise. This 2023 report paints a picture of a growing system, one that continues to innovate and rise to meet today’s challenges and demonstrates record numbers of CE activities and record levels of engagement by healthcare professionals. The primary goals of this report are to:

1. Identify trends in the number of activities and levels of engagement; and
2. Describe the size and scope of the IPCE enterprise.

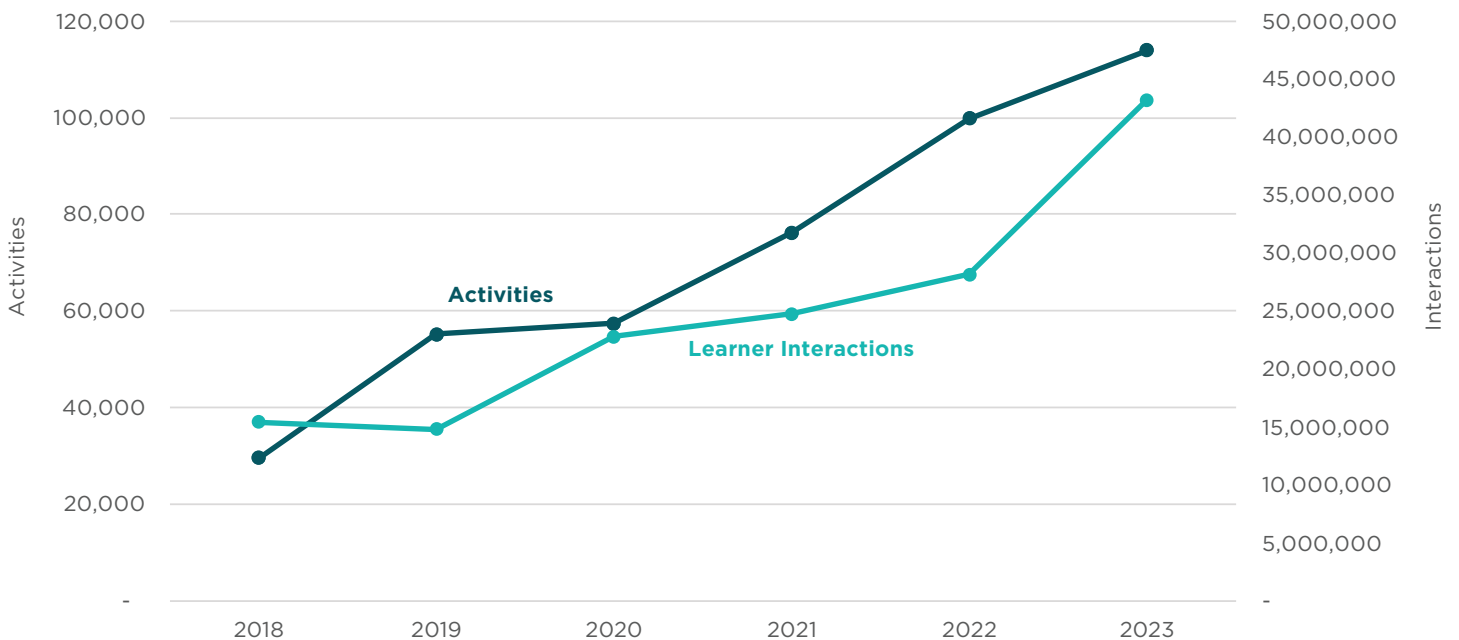

LONG-RANGE TRENDS

Activities And Learner Interactions

The demand for high-quality, accredited interprofessional continuing education continues to grow in response to the need to stay current with the evolution in research and team-based practice. In 2023, 169 accredited providers offered over 113,000 (up 14% from 2022) educational activities that accounted for over 43 million (up 54% from 2022) learner interactions. Notable growth in the number of learner interactions that has been facilitated by jointly accredited providers illustrates the value of collaboration and teamwork in an increasingly interconnected system of healthcare.

The growth in the number of jointly accredited providers (125% from 75 in 2018 to 169 in 2023) has fueled the increase in both activities and learners. However, a significant part of the growth is also a result of increasing accessibility of continuing education for the healthcare team via online systems.

CE Presented by Jointly Accredited Providers
Figure 1. Activities and Interactions 2018-2023

Executive Summary

SIZE AND SCOPE OF THE JOINT ACCREDITATION SYSTEM

Diversity Across the System

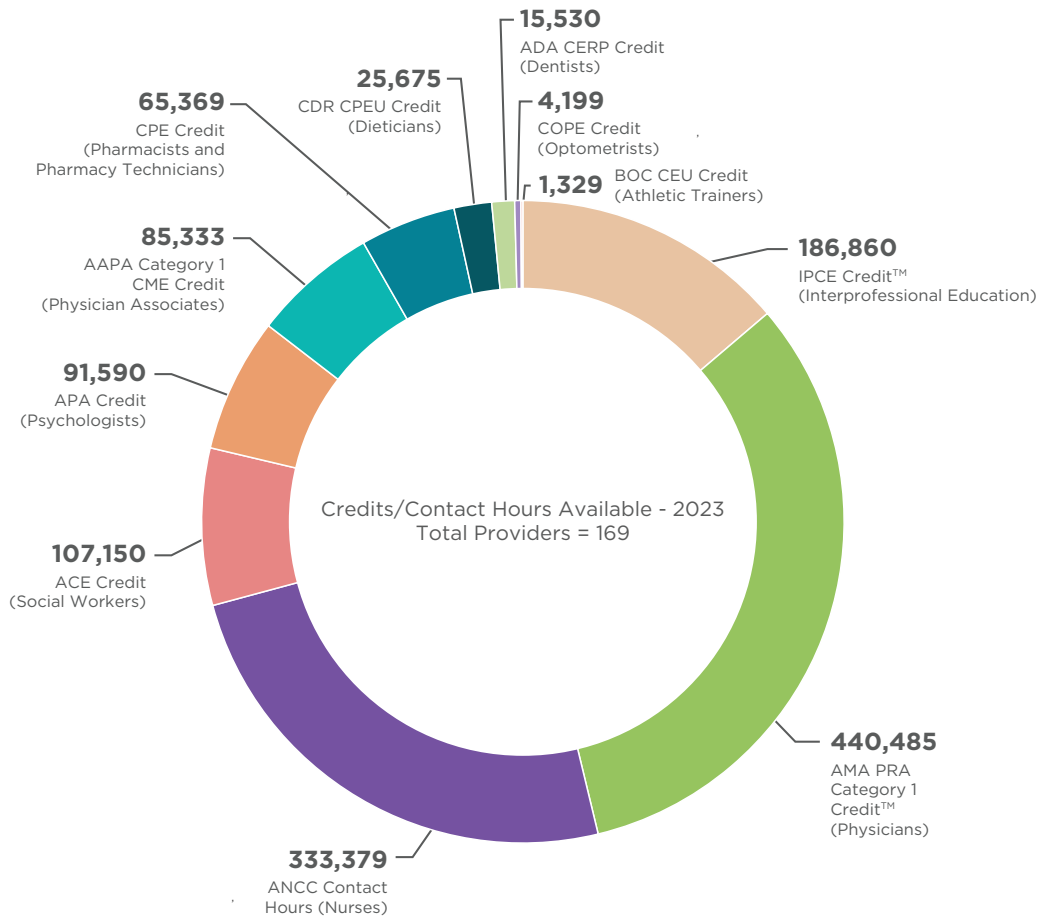

The table below shows the variety of organizational types that were accredited in 2023. This diversity allows accredited providers to meet the needs of healthcare teams where they are, whether it be in the institutions where they work and provide care to patients, via online publications and education, or amongst colleagues in professional membership organizations.

In 2023, jointly accredited providers offered on average 674 activities accounting for an average of 255,595 learner interactions. There is great diversity in the size and scope of each provider's CE program.

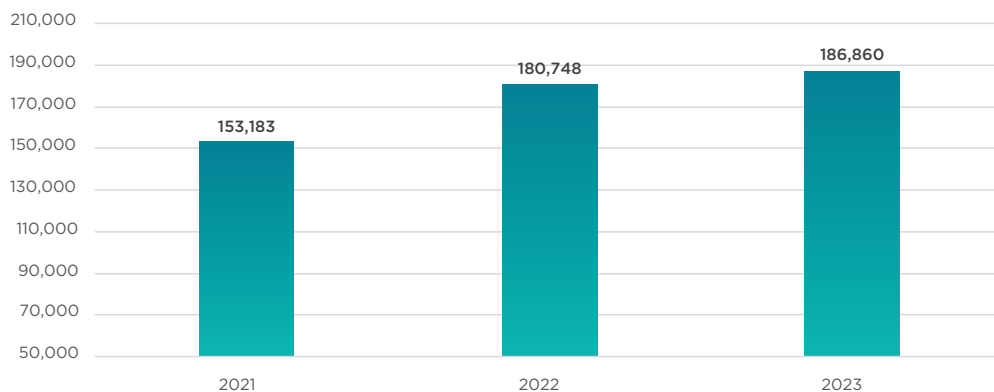

Organization Type	Count of Organizations	Activities		Learner Interactions	
		Total	Average	Total	Average
Hospital/Healthcare Delivery System	43	21,502	500	2,276,819	52,949
Publishing/Education Company	41	36,610	893	28,946,247	706,006
School of Health Sciences/Medicine	35	18,813	538	2,410,869	68,882
Non-profit (Membership Organization)	17	4,208	248	2,000,433	117,673
Not Classified	14	2,093	150	704,714	50,337
Non-profit (Other)	13	2,647	204	3,071,111	236,239
Government or Military	6	28,061	4,677	3,785,342	630,890
Grand Total	169	113,934	674	43,195,535	255,595

Executive Summary

The members of the healthcare teams that participate in jointly accredited education are professionally diverse, hailing from all 10 of the professions that are a part of Joint Accreditation. The graph below illustrates the number of credits/contact hours by type that were made available by joint accredited providers in 2023. These activities enable learners to learn with their teams, while earning the credit each of their individual professions require. The 11th type of credit, IPCE Credit™, is awarded for participation in activities that have been planned by and for the healthcare team, i.e. team-based continuing education. The number of IPCE credits available has increased 22% since 2021.

IPCE Credits Available, 2021-2023

Executive Summary

REVENUE FROM EXTERNAL SOURCES

The CE enterprise continues to leverage the value of external funding to support the needs of learners. In 2023, jointly accredited providers received over \$1.0 billion in revenue from external sources. The greatest source of revenue, commercial support, totaled \$543 million, up 9% over 2022. Government grants increased almost \$10 million or 99% compared to the previous year due to an increase in funding for activities that addressed mental health, rural health issues, opioid addiction, and substance use disorder.

On average jointly accredited providers received approximately \$6.3 million each in external funding. Providers that reported no or very little external support instead received internal budget allocations from their institutions to cover the cost of running their CE programs.

		Total Income	Commercial Support	Registration Fees	Advertising and Exhibit Income	Government Grants	Private Donations
Org. Type	Count of Orgs	Total (Average)	Total (Average)	Total (Average)	Total (Average)	Total (Average)	Total (Average)
Hospital/Healthcare Delivery System	43	\$48,286K (\$1,123K)	\$7,561K (\$176K)	\$13,751K (\$320K)	\$14,423K (\$335K)	\$11,483K (\$267K)	\$1,068K (\$25K)
Publishing/Education Company	41	\$664,603K (\$16,210K)	\$476,654K (\$11,626K)	\$116,884K (\$2,851K)	\$70,820K (\$1,727K)	\$245K (\$6K)	\$0K (\$0K)
School of health sciences/medicine	35	\$139,921K (\$3,998K)	\$28,600K (\$817K)	\$84,296K (\$2,408K)	\$21,147K (\$604K)	\$4,205K (\$120K)	\$1,672K (\$48K)
Non-profit (Physician Membership Organization)	17	\$166,612K (\$9,801K)	\$14,381K (\$846K)	\$112,187K (\$6,599K)	\$34,852K (\$2,050K)	\$4,387K (\$258K)	\$806K (\$47K)

CONCLUSION

The jointly accredited provider community continues to produce an increasing range of diverse educational content that has maintained and increased learner engagement, reaching record levels that substantially outpace the growth in the number of learners. Investment in and funding and support for interprofessional continuing education have continued to rise.

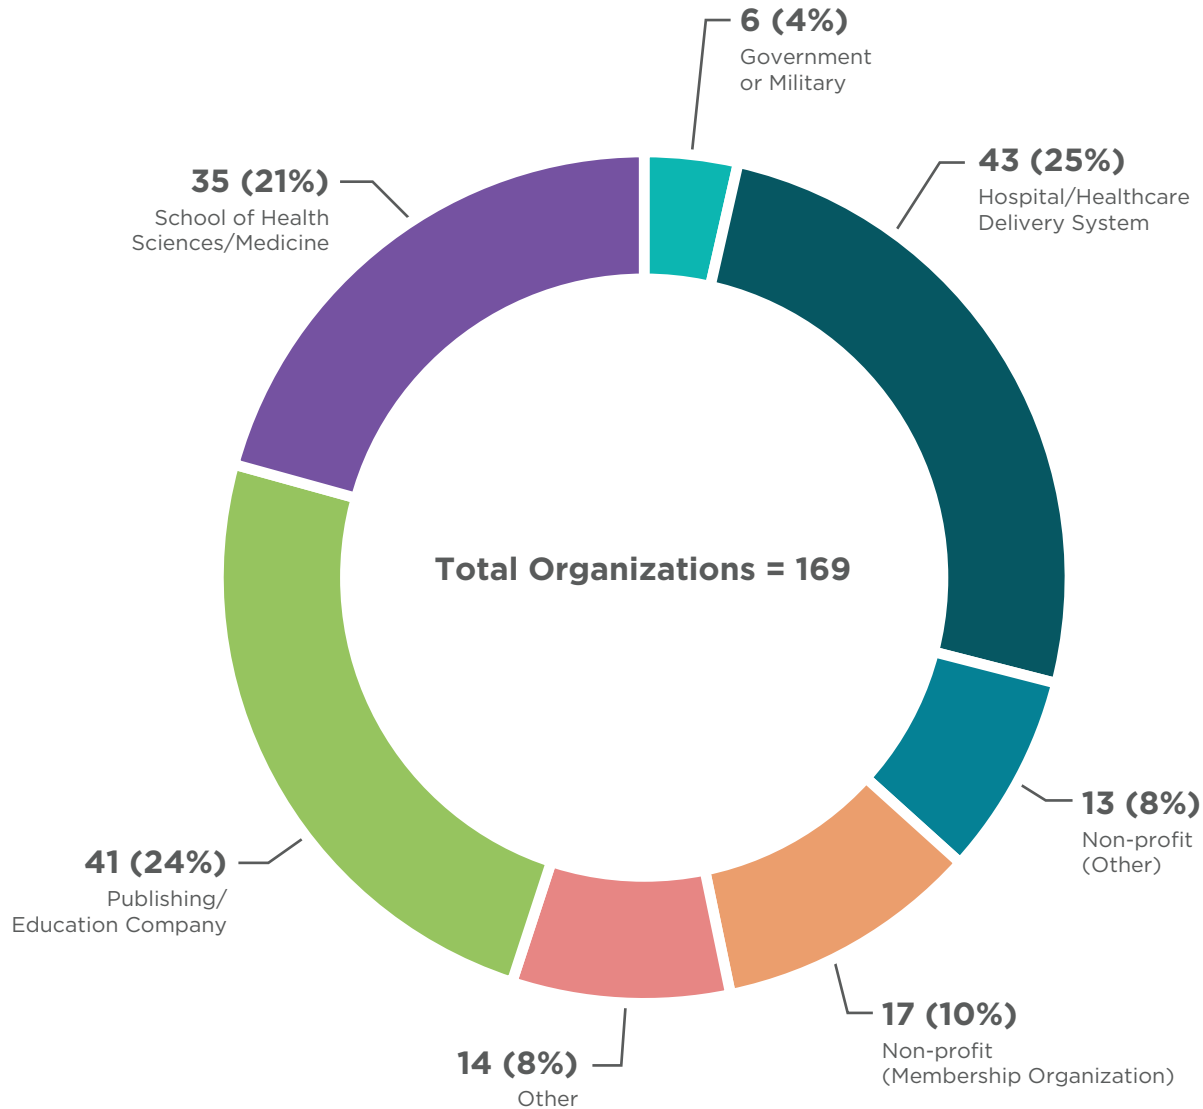

Joint Accreditation remains deeply committed to fostering team-based education and actively engaging interprofessional teams to enhance collaboration. This focus on improving team-based care directly benefits patients by advancing more coordinated, comprehensive, and patient-centered approaches to healthcare. We support the accredited provider community in this shared journey while maintaining quality control that is the source of trust for learners and stakeholders.

Our collective efforts ensure that interprofessional continuing education not only remains a cornerstone of professional development, but also strengthens the teamwork necessary to address complex patient needs, fostering a culture of lifelong learning, continuous improvement, and enhanced public health.

Jointly Accredited Providers

Figure 1. Providers by Organization Type—2023

Total Organizations = 169

Jointly accredited providers represent many different organization types. In 2023, hospital/healthcare delivery systems and publishing/education companies represented the largest numbers of jointly accredited providers, at 25% and 24%, respectively. Schools of health sciences/medicine followed closely at 21%. The “other” category includes organizations such as insurance/managed-care companies as well as patient safety and quality assurance organizations.

¹ Directly provided activities are delivered by an accredited provider. Jointly provided activities are delivered by an accredited provider and one or more nonaccredited organizations.

² Accredited providers report the number of learners at each activity. In this report, the learner numbers are referred to as interactions. The data represents aggregate numbers of interactions and not the number of unique learners. Learners attending multiple activities are counted multiple times.

³ Prior to 2018, jointly accredited providers are included in the aggregate totals of ACCME-accredited providers.

⁴ Increase in Learner interactions from 2022 to 2023 is partially due to several large accredited providers improving their technical infrastructure which allows them to report learners who have completed activities even if CE credit was not claimed. Previously, those accredited providers had reported learners only if CE credit was claimed.

¹ The launch of the Joint Accreditation Program and Activity Reporting System (JA-PARS) in 2018 enabled jointly accredited providers to report learner data by profession. “Other learner interactions” refers to healthcare professionals other than the ones listed.

² Directly provided activities are delivered by an accredited provider. Jointly provided activities are delivered by an accredited provider and one or more nonaccredited organizations.

³ Accredited providers report the number of participants at each activity. In this report, the participant numbers are referred to as interactions. The data represents aggregate numbers of interactions and not the number of unique participants. Participants attending multiple activities are counted multiple times.

¹The launch of the Joint Accreditation Program and Activity Reporting System (JA-PARS) in 2018 enabled jointly accredited providers to report learner data by profession. “Other learner interactions” refers to healthcare professionals other than the ones listed.

²Directly provided activities are delivered by an accredited provider. Jointly provided activities are delivered by an accredited provider and one or more nonaccredited organizations.

³Accredited providers report the number of participants at each activity. In this report, the participant numbers are referred to as interactions. The data represents aggregate numbers of interactions and not the number of unique participants. Participants attending multiple activities are counted multiple times.

2023 JOINT ACCREDITATION DATA REPORT

Table 8. Activities and Interactions with and without Commercial Support—2023

	Activities		Total learner interactions	
	Count	%	Count	%
No commercial support	101,724	89%	33,834,454	78%
Commercial support	12,210	11%	9,361,081	22%
Total	113,934	100%	43,195,535	100%

¹The percentage of providers reporting data for some of the financial categories is less than needed to report some of the quartile values.

CE Presented by Jointly Accredited Providers

Figure 3. Income—2023

Total Income is \$1,070,594,119

In 2023, commercial support made up 51% of reported income for jointly accredited providers. Registration fees accounted for 33%, advertising and exhibits income for 14%, and government grants and private donations accounted for the remainder.
